TO:

The Faculty Legislative Council,

Association of Faculty of Arts (AFAS),

University of Ibadan.

THROUGH:

The Clerk,

Faculty Legislative Council,

Association of Faculty of Arts (AFAS),

University of Ibadan.

Dear Honorable Members,

DEMAND FOR AN EMERGENCY CONGRESS ON THE SUSPENSION OF THE EXECUTIVE COUNCIL

We, the well-meaning, concerned, and progressive members of the Association of Faculty of Arts Students (AFAS), University of Ibadan, write to formally express our dissatisfaction and concern regarding the recent suspension of the entire Executive Council of our association.

It is our considered opinion that the decision to suspend all elected executives without providing AFASites with clear, detailed, and substantive reasons raises serious questions about transparency, accountability, fairness, and due process within our student leadership structure.

As stakeholders and the primary beneficiaries of the association, AFASites deserve to be adequately informed of any development capable of affecting the administration, representation, and welfare of students within the faculty. The suspension of the Executive Council is a matter of great importance and public interest, and as such, cannot be treated without proper explanation and engagement with the student body.

We are particularly concerned that such a significant action was taken without sufficient communication to the generality of students, thereby creating uncertainty, speculation, and unnecessary tension within the faculty community.

In view of the foregoing, we hereby demand the immediate convocation of an Emergency Congress where:

1. The Faculty Legislative Council will provide a comprehensive explanation for the suspension of the Executive Council.

2. The affected executives will be given a fair opportunity to address AFASites regarding the allegations or circumstances surrounding the suspension.

3. Students will be allowed to seek clarifications and make contributions on the matter.

4. The principles of transparency, accountability, justice, and democratic participation will be upheld.

We firmly believe that AFAS is founded upon democratic ideals and that matters of this magnitude should not be handled in a manner that excludes the voices of the students whom the association exists to serve.

We therefore urge the Faculty Legislative Council to act promptly in the interest of peace, justice, transparency, and the continued progress of our association.

Thank you.

Yours in the interest of AFAS,

Concerned and Progressive AFASite
